

MASSAGE PENSACOLA

Michael Haveard, Massage Therapist

March 7, 2014

We have known Dr. Michael C. Brooks since 1988. I gladly refer patients to Dr. Brooks because he is very ethical; concerned only with removing the patients' pain not their wallets. He uses many modalities. He has studied over the years to alleviate pain – whether it is chiropractic, acupuncture, lifestyle coaching and/or nutrition. He gives back to the community and is just simply a great doctor and human being.
