

TO WHOM IT MAY CONCERN

I have been going to
Chiropractors for 17 years,
AND I feel very fortunate
to have Dr Brooks now.
He is the best Chiropractor
I have ever had - no joke,
He fixes everywhere I
hurt, one day I came in,
and as a matter of conversa-
tion, told him I was coming
down with Bronchitis. He
said that he would work on
the area that supplies the
Blood flow and nerves to that
area, well he did, and when
I felt a gasp afterwards
I knew he found the spot,
AND I did not continue to
develop Bronchitis. IF YOU
WANT THE BEST - DR BROOKS -
is in - MARY KING
